PRELIMINARY AMENDMENT

Dear Sir:

IN THE CLAIMS:

Please add the following new claims:

BI
21. A portable radio telephone having an antenna which can be pivoted about an axis arranged internally of the telephone between a first position in which it projects from a surface of the telephone, and a second position in which it projects from a surface of the telephone, whereby the antenna may only pivot in a single plane and through an acute angle.

22. The portable radio telephone of claim 21 further including stop members internally of the telephone for limiting the movement of the antenna through the acute angle.
